Job	Aquariologist	Manager	Prof. Dr. Sergio Rossi
About Underwater Gardens International			
<p>Underwater Gardens International (UGI) is a company, based in Barcelona, committed to the regeneration and conservation of marine ecosystems. Founded in 2016, UGI combines scientific knowledge with business efficiency to achieve a meaningful and sustainable impact on the environment and society.</p> <p>UGI's solutions focus on the urgent challenges facing the oceans, such as climate change and the degradation of marine habitats. The solutions are structured around three main pillars: Ocean Regeneration R&D, Sea Gardens integrative projects for habitat resilience and climate change adaptation, and the Underwater Gardens Blue Innovation Hubs allow the financial sustainability of regeneration, through awareness raising edutainment and regenerative leisure.</p>			
Information about the job position			
<p>Initially, the offered job position will be involved with the <i>Horizon Europe OCEAN CITIZEN Project (2023-2026)</i>. OCEAN CITIZEN will develop a replicable marine restoration protocol that combines habitat, carbon immobilization and biodiversity regeneration with social engagement and economic benefits to all the local communities. OCEAN CITIZEN is part of the Lighthouse Projects of the EU Mission "Restore our Ocean and Waters". With a 2030 target, the EU Mission "Restore our Ocean and Waters" aims to protect and restore the health of our ocean and waters through research and innovation, citizen engagement and blue investments. The Mission's new approach will address the ocean and waters as one and play a key role in achieving climate neutrality and restoring nature).</p> <p>Some of your duties will be:</p> <ul style="list-style-type: none">- Develop requirements and requirements for marine biology laboratories.- Support maritime surveillance activities.- Develop bionomics design principles.- Work in close collaboration with the architecture team.- Development of office research.- Prepare technical reports.- Coordination of diving expeditions.- Support for science diving.
